MCC Heaters

Heater Whisper K-200

Economical Compact Heater

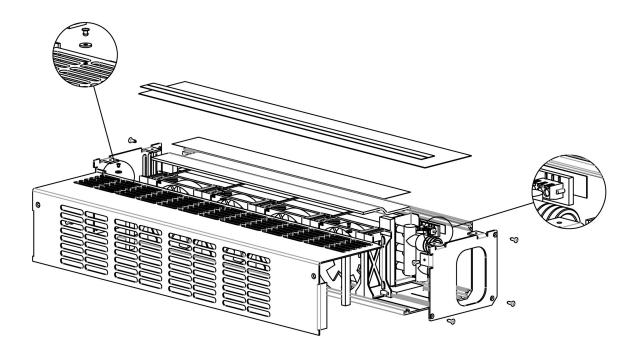

MCC Whisper K-200 compact heating unit is a part of the Whisper 200 family, its compact size means that it can be mounted anywhere. The whisper K-200 consists of a heat exchanger and four brushless fans (12VDC or 24VDC) with

long life bearings for quiet operation. All components are mounted in a rugged anodized aluminum case with integrated mounting bracket for simple installation.

Features

- Heater system for interior heating in buses with water/ glycol based heating systems
- Piping can be mounted either left or right side
- Smooth air distribution
- · Compact and light weight design
- Long life brushless fans

Technical Data

| Operating voltage/Maximum operating voltage | 24/28 VDC | |
|---|---|--|
| Power consumption | 0.8 A/19 W | |
| K200 meets the requirements according to: | Low Voltage Directive 73/23/EEC EMC Directive 89/336/EEC CE Marking Directive 93/68/EEC | |
| Standard connection | Direct to circuit board | Black = Ground Red = High speed Blue = Low speed |
| Heat ^[1] | 8190 Btu/hr (2.4 kW) Q ₆₀ 13649 Btu/hr (4.0 | kW) Q ₁₀₀ |
| Air flow | 103 CFM (175 m ³ /h) | |
| Coolant connections | Connections to K200 are with Ø 0.9" (22 mm) hoses. | |
| | (1) The Q_x value stands for the temperature difference between the water inlet temp and the air temp in the room where the heat exchanger is. For instance water inlet temp +80°C and air temp +20°C is | |

known as Q₆₀.
